*"the physical world of artifacts is very different from the conceptual world of the imagination, and artists often find themselves pushing technology forward, creating new artifacts either as part of, or in order to construct, their art. These new artifacts present new ways of using and thinking about other things."*

**COOL SHIT IS THE CANCER OF OUR PROGRAM**

*“Nothing is original. Steal from anywhere that resonates with inspiration or fuels your imagination. Devour old films, new films, music, books, paintings, photographs, poems, dreams, random conversations, architecture, bridges, street signs, trees, clouds, bodies of water, light and shadows. Select only things to steal from that speak directly to your soul. If you do this, your work (and theft) will be authentic. Authenticity is invaluable; originality is non-existent. And don’t bother concealing your thievery—celebrate it if you feel like it. In any case, always remember what Jean-Luc Godard said: “It’s not where you take things from—it’s where you take them to.”*
